

Interdisciplinary Research Colloquium

GSLog of TU Dortmund meets LogDynamics-IGS, Uni Bremen

The Interdisciplinary Research Colloquium (IRC) of the International Graduate School for Dynamics in Logistics (IGS) of the University of Bremen is devoted to the interdisciplinary knowledge transfer. This IRC focusses primarily on making friends with another structured doctoral training programme, the Graduate School of Logistics of the Technical University of Dortmund.

Beyond the introductions of both programmes by the spokesmen and the professor of Dynamics in Logistics, the method *Speed Dating* will be employed to make a lot of people know each other in a very short time. The method has already been tested for job interviews and has been evaluated positively at the last IRC of the IGS.

Each participant has two tasks:

1. introduce her/himself and her/his research topic with a few words to someone from a different discipline and with an unknown cultural background.
2. listen and identify common research interests or a mutual basis for further cooperation.

Agenda 2015/06/30

11:00 Welcome coffee

Dr.-Ing. Ingrid Rügge

11:30-11:50 International Education and Research on Logistics at TU Dortmund

Univ. Prof. Dr. oec. Michael Henke

11:50-12:20 International Education and Research on Dynamics in Logistics at the University of Bremen

Univ. Prof. Dr. rer. pol. Hans-Dietrich Haasis
Junior-Prof. Dr. Jürgen Pannek

12:20 Introduction of the method "Speed Dating"

Dr.-Ing. Ingrid Rügge

12:30 Speed Dating session 1

5 meetings of 7+ min. each
